PROJECTS

Hacker News —

NOVEMBER 2022 - NOVEMBER 2022

- **Features:** Search form, Hacker news API to fetch stories, Page loading animation, Server-side pagination, Clicking the "Read More" button navigates to that specific story, Clicking the "Remove" button removes the story.
- **Tech Stack:** HTML, CSS, ReactJS.
- **Contribution:** News app where users can search the story, read the story, remove the story, and paginate to different pages.

Goofy Pigs —

FEBRUARY 2022 - FEBRUARY 2022

- Build a responsive website for my NFT project using HTML and modern CSS techniques such as Grid, Flexbox, pseudo-selectors, animation, and more.
- **Tech Stack:** HTML, CSS, Bootstrap.

Tip Calculator —

AUGUST 2022 - AUGUST 2022

- The tip calculator helps to calculate the tip as per the total bill.
- It also helps to divide the bill and the tip between more than one person.
- **Tech Stack:** HTML, CSS, JavaScript.
